L O N D O N.

Yesterday the Term ended, when the Grand Jury made the following Presentment to the Court of King's-Bench, and received the Thanks of the Court for the same.

Middlesex.

E the Gentlemen of the Grand Inquest, impannelled, sworn and charged to enquire for Our Sovereign Lord the King, and the Body of the County of Middlesex, having Hearts full of Du-

ty and Gratitude for the many Benefits and Felicities we enjoy under His Majesty's most auspicious Government; and being deeply sensible that the Liberty and Prosperity of these Nations, entirely depend upon the Continuance of the present happy Establishment; cannot, without the utmost Detestation and Resentment, reflect on any Attempt to subvert and destroy that Constitution, which has been preserved and secured to us, at the Expence of so much Blood and Treasure, by our Ancestors, and which ought to be transmitted down inviolable to our Posterity.

It is from the Succession of the Crown of these Realms, in His Majesty's August and Illustrious Family, and from that only, that we can expect those great Blessings to be perpetuated to us, which were so happily preserved for us, by the late glorious Revolution. While the Sceptre remains in their Hands, we have all the Reason imaginable to be fully satisfied and convinced, that the Laws of the Land will be the only Measure of the Sovereign's Rule; and that the Rights and Privileges of the People will be maintained in their utmost Purity and Lustre, under the Sacred Influence and Protection of the Prince.

It is therefore with equal Concern and Surprise, that we have observed the malicious Tendency and evil Design of some late Writings, to raise Jealousies and Uneasinesses in the Minds of his Majesty's Subjects, against a Government so wisely and happily constituted, and so justly and uprightly administered: We could hardly believe it possible, if daily Experience did not manifest the Truth of it, that any should be found so blind and insensible to their own Good, as to endeavour to overthrow a State, which conveys and distributes Peace, Security and Freedom, in the greatest Abundance, and in the fullest Perfection, to every Individual who has the Happiness to live under it.

We were in hopes, and it might reasonably have been expected, that the Mildness and Lenity of his Majesty's Government would have turn'd the Edge of Malice and Calumny, and have appeased that Spirit of Libelling which has gone abroad, to sow the Seeds of Discord and Dissention among the People; a Spirit which has been raised with less Reason, and yet which has rag'd with greater Fury, than can be paralleled in any Age or Nation before. But we have had the Misfortune to see, that the Paternal Affection and Indulgence which His Majesty has always express'd for his People, has, instead of silencing the Voice of Sedition and Clamour, made it more outrageous and violent; and the Impunity with which the most vile and infamous Libels have been published against the Administration, have encouraged the wicked and traitorous Writers of them to attack even Majesty itself; and by this Conduct have made it plain and evident to the whole World, that the their Pretence has been only to censure the Measures of the Administration, yet their real Aim and Intention have been against the Person and Authority of the King.

For this Reason we think it incumbent upon us, and we should certainly be wanting in our Duty to our King and Country, if in the Station we now are, we did not take the most effectual Methods to bring such Offenders to Punishment: In order therefore to put a Stop, as far as it is in our Power, to that unexampled Licentiousness of the Press which has of late Years prevailed, and to deter others, by so just and necessary a Prosecution, from committing Crimes of the like Kind, we Present the Authors, Printers, and Publishers of a most Scandalous, Seditious and Treasonable Libel intitled, *The Alchymist*; or, *Weekly Laboratory*.

By Joshua Boyle, Esq; N^o 21. Saturday, June 4, 1737, hereunto annexed; and do desire that they may be prosecuted for the same.

Yesterday arrived a Mail from Holland, and another from France.

THE Letters from Turin do not confirm the Report we had, that the King of Sardinia was assembling his Troops: And the Letter pretended to be from Madrid, of which an Extract was given in some Papers by the preceding Mail, whereby 'twas insinuated that Spain was to send 20000 Men to Tuscany, &c. appears to be a mere Forgery, without the least Foundation; since Letters from Spain of the 7th Instant, O. S. make no mention of any Thing tending towards an Embarkation at Barcelona.

They inform us, that the Count de Montijo is made President of the Council of the Indies.

Those of the 10th Instant from Vienna say, that the Count de Welschegg, one of the Emperor's Plenipotentiaries, is preparing to set out for the Congress at Nimirov in Poland, having received his last Instructions, and 6000 Ducats for the Expences of his Journey: But as the Conferences for a Peace are not like to be opened before the latter End of July, it is very probable that the Fortune of War will determine that of the Congress; the rather, because the Ottoman Porte still refuses to explain itself, as to the Concession of Asoph to the Court of Russia, by way of Preliminary. And as it is hardly to be doubted, that the View of the Turks is only to gain Time by the Protestsations they make of a Disposition for Peace, the Imperial Court has resolv'd to begin the Operations against them without Delay, and sent positive Orders for that Purpose to the Count de Seckendorff. The Duke of Lorraine and his Brother are arrived at Buda, in their Way to the Army.

The Letters from Gradisca of the 2d Instant say, that the Grand Vizier is gone to incamp with his whole Army at Iackza in Moldavia, and that from thence he intended to march towards the Russian Army; but those from Vienna say, they are to lie incamp'd along the Niefter between Bender and Ocakow, while the Conferences are held for a Peace.

Those from Petersburg, which are of the 4th Instant say, they have received Advice, that almost half the City of Moscow was reduced to Ashes by a great Fire that happened on the 18th of May last; and that in two Days after, above 3000 Houses were likewise burnt down by a Fire at Jaroslaw, a Town upon the Wolga, where there's a great Fabrick of Russia Leather.

Letters of the 31st ult. from Naples say, the Eruption of Mount Vesuvius, has been quite over for several Days, after having done incredible Damage, and utterly ruin'd a great many Families; and that the King, out of mere Compassion for the prodigious Losses sustained by the Inhabitants near this Mountain, has order'd that they be free of all Taxes, Contributions, &c. for some Years.

The Letters from Vienna add, that the Emperor has engaged the Produce of his Silver Mines in Silesia, as Security for the two Millions and half of Dutch Florins, which he is negotiating in England. The Time set for Payment is for a Term of Years, to expire in 1742. during which the Emperor is to pay 5 per Cent. Interest.

According to those of the 8th Instant from Milan, the Report of 6000 Frenchmen being arrived at Fenestrelles, on the Frontier of Piedmont, is as groundless as the Story of the King of Sardinia's Preparations for forming an Army.

The Letters from Corfica say, it was believ'd that Baron Theodore was returned to that Island, because Ottoconli, and some others of the chief Malecontents repaired to Aleria, where it was supposed he landed; and that one of them wrote a Letter to Rivarola, the Commissary of Genoa, to acquaint him, that since the Massacre committed lately at Aleria,

by a Detachment of the Garison of Bastia, the Corsicans were resolv'd to keep no farther Terms with the Genoese; but to treat all they met hereafter, with the same Severity as they had treated the Malecontents.

Letters of May 29, O. S. from Nimirov in Podolia say, that 2500 Foot and Dragoons are going to be posted in that Neighbourhood, for the Security of the Plenipotentiaries that are to treat there of the Peace between Russia and the Porte; and that Count Munich has pass'd the Dnieper with his Army, and incamp'd on the other Side of that River: And those of May 27 from Zorocca say, that the two Turkish Plenipotentiaries who are come thither, are attended by the Great Treasurer, the Sultan's Secretary, &c. with a Retinue consisting of 2000 Persons, besides 91 Camels, 150 Mules, and a like Number of Ases for their Baggage; and that, besides others, they have brought 70 Tents with them of extraordinary Magnificence.

L O N D O N.

The African Company have received Advice from Cape Coast, that Mr Thomas Eison, who was Second in their Service there, being disordered in his Mind, had cut his Throat. He has left a Widow, who is Sister to Sir Henry Blount, Bart.

The last Advices from South Carolina, dated April 28, 1737, say, 'That last Week arrived at Charles Town his Majesty's Ship the Seahorse, Capt. Compton, from Virginia; and two more under the Command of Captain Norris, and Captain Warren, are daily expected. The Spaniards are going forward with their Preparations at the Havannah; but have been much delay'd by their being disappointed in the Provisions they expected from the English Colonies. The Spanish Garrison at St. Augustine, is increased, by the Arrival of several Men from Cuba: But our Apprehensions are now over, because we see Succour arrive daily to us, and know that there is more coming from England, which will be arrived here before our Advantages can be in a Condition to act: And that the Creeks and Cherokee Nations of Indians have unanimously agreed to assist the People of Georgia with a Body of Warriors, in case they are attack'd, and that that Colony is in a defensible Condition.'

Yesterday the Commissioners for building a Bridge at Westminster, met at the Jerusalem-Chamber; and we hear, that they fixed upon a Stone Bridge, which is to be built from New-Palace-Yard, Westminster, to the opposite Shore; and that they have ordered Plans to be brought in accordingly; and then they adjourned to Wednesday next.

This Day begins the General Quarter-Sessions of the Peace for the City and Liberty of Westminster, at Westminster-Hall; and on Monday at Guildhall, on Tuesday at Hicks's Hall, and on Wednesday at the Old Bailey.

We hear, that Gyles Earle, Esq; who was lately appointed one of the Lords Commissioners of the Treasury, is rechose for the Borough of Malmshury. As is likewise Henry Fox, Esq; for the Borough of Hindon in Wiltshire, who was lately made Surveyor-General of His Majesty's Works.

Yesterday the Seven Malefactors mention'd in our last were executed at Tyburn.

Ann Mudd, for the Murder of her Husband John Mudd, a Butcher in Carnaby-Market, was drawn to the Place of Execution on a Hurdle, and there tied to a Stake, and burnt.

At the Place of Execution they behaved very penitent, and confessed the Facts for which they respectively suffered.

Fleta, seu Commentarius Juris Anglicani; partim ex Codice MS. Cottoniano, partim ex antiquis Rotulis, & veterinistam Historiæ quam Legum Angliæ Scriptores, emendatus, illustratus, & integrum restitutus: Antiqua Placita Coronæ Continent.

PARALYTICON, seu Anima Nervorum,
A Stupendous Chymical Essence which infallibly cures the Palsy, and all other Nervous Diseases.

THE very first DOSE of it (a few DROPS only) instantly penetrates the inmost Recesses of the minutest Nerves, and darting almost as quick as Lightning thro' the whole Human System, diffuses kindly Warmth and genial Comfort to the weakened Limbs and all Parts of the Body, and affords immediate sensible Relief in the most obstinate Palsy, and all Paralytick Effects, Shaking, Trembling, Numbness, Deadness, and Weakness, whether universal, or of particular Parts only, or whether lately contracted, or of many Years Continuance.

And as the very first Dose makes an apparent, demonstrable Amendment, so the continuing of it for a short Time as surely accomplishes a perfect Cure, not only of the most grievous Palsy or Resolution of the Nerves, but also of their Cramp-like Contractions, Shrivelling of the Sinews, and all other Nervous Complaints whatever, and that in Persons of either Sex, or of any Age, and whether occasioned by preceding Illness, fast Livings, hard Drinking, long Courses of Physick, great Colds, or excessive Fatigue, either of Mind or Body.

Words cannot sufficiently express the uncommon, the unparalleled Efficacy of this great Medicine, as all who take it frankly acknowledge; but its vastly superior Excellency to all other Remedies, may be more securely rely'd on, for the infallible Cure of the Palsy, and all Paralytick Effects and Nervous Indispositions, than the celebrated Cortex is for Intermittents, and this many Hundreds have experienced.

It rectifies all Disorders of the first Passages, creates an Appetite, procures a good Digestion, enriches the Blood, restores the natural Vigour and steady Use of the Limbs, and strengthens the inflexible Joints, Muscles, Tendons, Ligaments, and whole Habit to an immense Degree.

It is also very pleasant to take, is comforting and cordial to the Stomach and Bowels, and for Safety might be given to the youngest Infant. It is to be had only by the Author's Appointment at Mr. Radier's Toyshop at the Rose and Crown against St. Clement's Church-yard in the Strand, at 3 s. 6 d. a Bottle, with printed Directions at large.

Whereas many Inconveniences have attended the former manner of supplying the Kingdoms of England and Ireland with Pyrmont Water; particularly, the Water frequently lay long in the Merchants Hands at Bremen before transported to England, and afterwards yet longer in the Possession of the Sellers in London before sold: so that sometimes, before it came to the

Drinkers Hands, it would be a Year old, or upwards. Moreover I have detected Persons filling Bottles (marked with a Star, like those in which I used to fill the Pyrmont Water) at a common Spring, in order to transport and impose them upon the Publick, for the true Waters of Pyrmont. And further, to my certain Knowledge, great Quantities of false Waters were purposely filled in this Country, and imported last Year on the Publick designedly, by some Traders in England, in order to prejudice this Fountain, and to the Detraction and Disappointment of the Drinkers. And on the other hand, being well assured of the Integrity of Mr. EYRE, sworn Purveyor of all Mineral Waters to their Britannick Majesty, and being an Eye-witness of the Improvements he has made in filling these Waters, whereby they are now transported in greater Perfection: Therefore I do appoint him, jointly with my Brother JOHN-HENRY REISENER, to transport to England and Ireland the said Waters, which shall be sent them from time to time, and be sold by them only, or by such as they shall appoint, by which Method the Dominions of his Britannick Majesty will be constantly supplied with FRESH PYRMONT WATER, and the foregoing Inconveniences be in some measure prevented: And for a further Caution, the Bottles filled with the said Water will have the Arms of his Highness the Prince of Waldeck impressed on the Side, agreeable to a Patent granted them by his Highness for that Purpose; and all such as are not thus marked, agreeable to the above Impression, are not to be depended on to be the true Waters of Pyrmont.

Pyrmont, Mar. 30. **CHRISTIAN-ULRICH REISENER,** Master of the Pyrmont Wells.

THESE are to certify, That Messrs JOHN-HENRY REISENER and HENRY EYRE have caused to be filled, in their Presence, 34,113 Bottles of Pyrmont Water, which Water was filled in a good Season, and when it was in its utmost Perfection, and was corked, wired down, and secured by an excellent Composition, after an improved Method.

D. JOHN PHILIP SEIP, Counselor and Physician to his Highness the Prince of Waldeck at Pyrmont.

These WATERS are sold at Mr. EYRE's Mineral Water Warehouse, near Temple Bar.

Where also are constantly sold the following Mineral Waters, viz.

SPA, BORNE, BATH, SCARSELTERS, MOLT, BRISTOL, BORO

N. B. Mr. EYRE employs his whole Time in attending and filling the several Waters, particularly those of Pyrmont and Spaw.

The Universal Family MEDICINE,
Still more and more fam'd, after upwards of Ten Years Success with the Publick.

Is sold by the Author's Appointment, at Mr. King's Fifth Shop in the Poultry, near the Royal Exchange; at Mr. Martin's Toy Shop, the Sign of the Three Rabbits near Durham Yard in the Strand; and by Mr. Hildyard, Bookseller in York, at 3 s. the Bottle Retail.

It is to be taken at any Season of the Year, but especially in the Spring and Fall; is so very agreeable to Young and Old, that Children take it without Trouble, a few Drops being Dose; and so gentle, that it weakens not the most delicate For it is a safe and effectual Alternative (in a less Dose) where Purging is not necessary; an Excellence inherent in this Medicine, which is a singular Property well known to the Learned, to be in some Cathartic Medicines.

A Certain and infallible Cure for the SCURVY, tho' of the longest Standing, and attended with the most aggravated Circumstances (a Distemper so common to English People, that not one in a thousand is usually exempt from it, and great Numbers are sorely afflicted with it) being a cordial Elixir, peculiarly adapted to that Disease in all its Forms of appearing, from the slightest itching Humour in the Blood, to its utmost or last Efforts on human Nature.

For it is a true Specifick Cordial, that perfectly cures that Distemper by gentle Evacuation, by Stool and Urine, the only sure and effectual Way perfectly to cure the Scurvy, and prevent Relapses (notwithstanding what may be dreamed to the contrary) the Truth of which is witnessed to daily, by many Thousands that have taken this Medicine. It so powerfully rectifies the Blood and Juices, that scrophulous Cakes are also speedily cured by it; and all Spots, Blisters, Pimples, &c. on the Skin, are quickly and entirely taken off, the Patients made lively and brisk, many chronic Diseases prevented, and a due State of Health secured.

It removes all Pain from the Stomach, helps Digestion, opens Obstructions, and is peculiarly serviceable to Maliciously inclined, or troubled with the Green Sickness. 'Tis the best Medicine in the World to destroy Worms in Children or grown People, and prevent their Return; for it scours away all starchy, viscid Humours which breed them in their Bowels, and is so well adapted to all Constitutions, that it is deservedly esteemed both in City and Country, the most general Family Medicine that ever was known to preserve Health, and renders no Business or Recreation.

Good Allowance is given Wholesale by Mr. King for ready Money to Country Shopkeepers, &c. to sell again. This Medicine will keep many Years in any Climate.

The Directions given with it are large and full.
